

MANAGEMENT SYSTEM POLICY

“To provide Services and Products that meet the needs of our customers and stakeholders. Develop technology and drive the continuous improvement of the Management System of the Vamtec Group”.

- To keep customers satisfied by constant developing the Management System and driving continuous improvement, focused on distinct features, high quality, cost, deadlines and the effectiveness of the products and services we provide;
- To protect the environment by preventing pollution, managing natural resources and using them consciously and minimizing the amount of solid and other waste produced;
- Maintain occupational health and safety; remove dangers and reduce risks in order to prevent injuries and illness caused at work; provide a safe and healthy working environment for all staff;
- Encourage all staff to be involved in activities around occupational health and safety;
- Ensure all staff are aware of the Dangers and Risks to Health and Safety in the workplace and the Environmental Impact of our activity;
- Ensure that everyone understands and complies with the Legal Requirements regarding the Environment and Occupational Health and Safety, including Contractual Requirements, by following specific standards;
- Try to ensure a good quality and acceptable environment; minimize the amount of atmospheric pollution released by adopting better technology, providing it is technically and economically viable;
- Ensure the policy is available to all workers and that all levels receive it and understand it;
- Provide resources to implement and support the Management System.
